•1500 printed copies of the Arizona Youth Profile booklet

Policy
Best Practice HIV Model Policy for Schools

Training agendas, registrations, & evaluations;
High-Risk Youth Questionnaire, List of TA recipients

OUTCOMES (~ 1-3 years)

•Increased number of teachers and health educators qualified to provide instruction in HIV/AIDS/STD prevention

•Increased confidence and skills in effective health education strategies among teachers and health educators who work with youth

•Increased number of parents engaged and involved in HIV/STD, sexual responsibility and Sensitive Issue topics

•Increased number of at-risk youth participating in HIV/STD and pregnancy prevention education

•Increased number of adjudicated youth getting HIV tested

•More school districts aware of HIV policies and procedures and available resources

•Increased number of LEA's receiving a certification of compliance from ADE

•Increased participation in program related activities between partner organizations

•Increased visibility and awareness of the HIV/AIDS prevention program and its resources

School Health Education Profiles
School Health Policies and Programs Surveys
Youth Risk Behavior Survey
High-Risk Youth Questionnaire

INTERMEDIATE OUTCOMES (~ 3-5 years)

•Increased number of Arizona students educated on HIV/AIDS/STD prevention

•Increased percentages of Arizona schools offering an HIV/AIDS or sex education course

•Increased number of Arizona teachers participating in professional development workshops on health education topics provided by ADE

•Consistent approach to HIV/AIDS/STD education in Arizona public schools

•A reduction in the risk behaviors associated with contracting HIV/STD's among sexually active adolescents in Arizona.

School Health Education Profiles
School Health Policies and Programs Surveys
Youth Risk Behavior Survey

LONG-TERM OUTCOMES (~ 4-6 years)

Policy changes supporting HIV/AIDS education and sex education in Arizona public schools

ULTIMATE GOAL

Improve the health, education, and well-being of young people through coordinated school health programs

Data source to document accomplishment
